

Minitab Engage® Web Release

September 2026

1. New Features in Minitab Engage September 2026

People reporting in dashboards

Add people data to dashboard reports to analyze participation, contribution, and workload by person.

2. Problems Resolved in Minitab Engage September 2026

The following issues are resolved in Minitab Engage September 2026.

- Hyperlinks to the idea form in the Management section of a workflow project do not work. (171623)
- Improved stability of the web app. (376643)
- When the dashboard uses French language and formatting options, Engage uses “M” instead of “k” to represent thousands. (383775)

3. Known Problems and Workarounds

Item 1

In some cases, using many images in a Rich Text Box may impact application performance. (182323)

WORKAROUND: Distributing images across multiple boxes may help mitigate potential issues.

Item 2

Certain regional settings may affect date selection within the calendar picker. (182136)

WORKAROUND: Manually enter the date to ensure accuracy.

Item 3

When using Remote Desktop, copying form elements may not always work as expected. (178344)
